It is to be regretted that very few of the surveying chains will, if tried in this way, be found to answer. If the chain be too long, some surveyors attempt to rectify it by taking out a few of the small rings, thus rendering the links unequal and unfit for taking offsets. Hence we see how advantageous it would be for gentlemen possessed of large estates to have a standard line, that they themselves might try the surveyors chain, and be able to judge as to the accuracy of a survey already made, or as to the propriety of making a survey with such an instrument. 105. E 2 - A Method of detecting False Balances. Although uniformity of weights and measures has in a great measure taken...
