Brilliant, young scientists are drawn together by a Nobel Laureate who has proved that space is not empty; it is a continuous fabric made of tiny, entwined strings. His team is to devise experiments that show his acclaimed equations are true. The professor draws criticism from some faculty for his profound, Christian views. He displays Christian art in his office and teaches a popular Sunday School class across the street from the University. A deadly love triangle erupts among the researchers. A lovely girl is wooed by two very different men: one a devout, young Christian, the other a demon-possessed, suave, rich and handsome young man. The rivalry is resolved in a bizarre sequence of events. The tale progresses through a verbal tapestry of intriguing scenarios, filled with emotion, surprises and fascinating facts.
