Excerpt from Railroad Accidents: Their Causes and the Means of Preventing Them Some months since, the work of which the present volume is a translation having fallen into my hands, and appearing to me to contain much that would be useful and entertaining to those connected with railroads in this country, and fitted to supply a public want, I have undertaken to translate it for publication. When a great evil exists in society, the first step towards its removal, is a careful study of its phenomena and causes. It must be mapped out for the public eye. Those of its causes which are under human control must be shown forth, and the public conscience awakened in regard to them; and when this is once done, an evil that may have been deplored and submitted to, for a long period, as necessary and inevitable, is at last diminished, if not destroyed.
